## Features/Benefits of the Vantage® TF

## The Twin Fire Unitary Infrared Heater

| Feature  | Benefit   |
|--|---|
| Layout & Installation:   |   |
| Centralized burner location  | Provides the most effective heat distribution in the unitary  |
|  | infrared market   |
| <ul> <li>Highest single burner inputs in the infrared industry</li> </ul>  | <ul> <li>Reduces installation cost</li> </ul>   |
| <ul> <li>Lowest clearances to combustibles, relative to total heater</li> </ul>  | <ul> <li>Frees valuable workspace</li> </ul>  |
| input, in the infrared industry  |   |
| <ul> <li>Broad range of high BTUH input burners and tube lengths;<br/>straight, "U" or "L" configurations available</li> </ul> | Fits any building size or floor plan  |
| <ul> <li>Reflectors can be tilted or side reflectors can be added</li> </ul>   | Concentrates heat where needed  |
| <ul> <li>Quick assembly stainless steel couplings</li> </ul>   | Minimizes installation time   |
| Option of decorative grille (for suspended ceiling   | <ul> <li>Aesthetically-appealing look in high visibility areas</li> </ul>                                       |
| applications) or protective grille   |   |
| Operation:   |   |
| <ul> <li>Operates with natural gas or LP (propane) gas</li> </ul>  | <ul> <li>Fuel efficient and environmentally friendly</li> </ul>   |
| <ul> <li>Low-intensity infrared heat</li> </ul>  | <ul> <li>Warms people and objects directly, not the air</li> </ul>  |
| <ul> <li>Deep-dish, high efficiency aluminum reflectors with end caps</li> </ul>   | <ul> <li>Maximizes energy reflection; minimizes heat loss by convection</li> </ul>                              |
| Dual direct spark ignition requires lower amperage draw  | Reduces electricity and installation costs, reliable operation  |
| Three-try ignition module  | Reduces nuisance lockouts   |
| Safety:  |   |
| CSA design certified   | <ul> <li>Independent testing to industry standards</li> </ul>   |
| <ul> <li>Electrical and burner components separated by a partition</li> </ul>  | <ul> <li>Minimizes negative effects of contaminants and back draft</li> </ul>                                   |
| <ul> <li>Stainless steel flex gas connector included</li> </ul>  | Reliable, durable gas piping  |
| Detailed Installation, Operation and Service manual  | <ul> <li>Reduces installation time and errors; easier to troubleshoot</li> </ul>                                |
| ·  | and repair  |
| Maintenance:   |   |
| <ul> <li>Separate burner compartment</li> </ul>  | <ul> <li>Protects valuable electrical controls from heat exposure and<br/>extends life of components</li> </ul> |
| <ul> <li>Durable, welded burner construction with electrostatically applied paint</li> </ul>                                   | Strong, long-lasting unit   |
| Removable burner doors   | Easy access for service   |
| Mica flame observation window  | Flame verification and burner operation easy to observe   |
| Green indicator light  | Gas valve/burner verification   |
| Three-year limited warranty on all components  | No hidden short-term exceptions for electrical and gas  |
|  | components  |
